PROFESSIONAL SUMMARY

Junior Backend Developer skilled in **Django** and **FastAPI**, with hands-on experience building **RESTful APIs**, implementing **JWT authentication** and **OAuth**, and managing background tasks with **Celery** and **Redis**. Experienced in **CI/CD pipelines** and cloud deployment on **EC2** instance. Strong foundation in Data Structures and Algorithms with 1,200+ problems solved. Motivated to contribute to collaborative, growth-focused teams.

EXPERIENCE

Softvance Innovation

Dhaka, Bangladesh

Backend Developer

Nov 2025 – Present

Building production-grade REST APIs with **Django REST Framework**, implementing **JWT** and **OAuth** authentication, managing async tasks via **Celery** with **Redis** and **RabbitMQ**, and deploying containerized services to **AWS** with **CI/CD pipelines**. Collaborating with cross-functional teams to deliver scalable, tested backend solutions.

TECHNICAL SKILLS

- **Languages:** Python, JavaScript, C, C++, Java
- **Backend:** Django, Django REST Framework, FastAPI, Firebase
- **Authentication:** JWT, OAuth, Google OAuth, django-allauth
- **Task Queue & Caching:** Celery, Redis, RabbitMQ
- **Databases:** PostgreSQL, MySQL, SQLite
- **Frontend:** HTML, CSS, Flutter
- **DevOps & Tools:** Git, GitHub, Docker, Github Action, EC2, S3, Nginx, Ubuntu
- **Monitoring & Observability:** Grafana, Prometheus, Loki, Promtail, Locust
- **Data Structures & Algorithms:** Strong foundation from basic to intermediate level

PROBLEM SOLVING

Solved **1,200+** Data Structures and Algorithms problems across online judges:

- **LeetCode:** 350+ problems solved
- **Codeforces:** 400+ problems solved (*Max Rating: 897*)
- **GeeksforGeeks:** 420+ problems solved
- **Others:** 100+ additional challenges on various platforms

PROJECTS

HelloAppart

[Link](#)

Django REST Framework, PostgreSQL, Docker, JWT, Multi-Tenancy

- A **multi-tenant SaaS platform** for apartment and property management where each owner operates in a fully isolated environment on shared infrastructure.
- Built modules for **owner onboarding**, **tenant provisioning**, **site admin control panel**, and **role-based access**

scoped per tenant.

- Implemented **JWT authentication** with tenant-aware request routing so each owner only accesses their own data.
- Containerized with **Docker** for consistent local and production deployment.

IKON Skills

[Link](#)

Django REST Framework, PostgreSQL, Stripe, Celery, Redis, Docker, JWT, AWS

- An **e-learning platform** where practitioners offer courses, degrees, and micro-credentials to learners with structured lesson and progress tracking.
- Built modules for **degree & enrollment, lesson management, learning progress, gamification, collaboration, and partnership**.
- Integrated **Stripe** payments with webhook support for dynamic enrollment pricing and subscription handling.
- Implemented **real-time notifications, practitioner profiles**, and per-learner **progress tracking**.
- Deployed on **AWS** with Docker and configured CI/CD for automated production releases.

Thundra

[Link](#)

Django REST Framework, PostgreSQL, Celery, Redis, Stripe, AWS S3, Docker, JWT, WebSocket

- A **full-featured e-commerce platform** for product discovery, ordering, and digital content delivery with rich seller and buyer experiences.
- Built modules for **product management, order processing, discount & promo codes, wallet, reviews, events, and content management**.
- Integrated **Stripe** payment gateway with webhook handling for real-time payment and shipment status updates.
- Implemented **AI-powered** product recommendations and **automation** modules for scheduled background tasks.
- Used **Celery + Redis** for async jobs; configured **AWS S3** for media storage and **Locust** for load testing.

EDUCATION

B.Sc. in Computer Science & Engineering

Graduated: 2025

Port City International University, Chittagong

LANGUAGES

- **Bengali:** Native (speaking, reading, writing)
- **English:** Intermediate (speaking, reading, writing)
